Traditional healthcare in the U.S. is broken

Traditional “fee for service” healthcare

- Low-quality outcomes
- Overuse of high-priced specialists, Rx & diagnostics
- Ever-increasing health spend
- Bad experience for plan sponsors, providers and patients

Advanced Primary Care from Marathon Health

- Improved health outcomes
- Less reliance on medications and specialists
- Reduced health spend
- Great experience for plan sponsors, providers and patients

Marathon Health transforms the health of employer populations and the broken healthcare system.

Covering 90% of your health needs

A provider who knows you

Your provider knows you by your name, not as their 10:30am appointment.

Care when you need it

Your health doesn't follow a 9-to-5 schedule, so why should your provider's office? With our same-day and next-day appointments for immediate concerns, you can talk to your provider whenever you want.

Care how you want it

Say goodbye to crowded waiting rooms and rushed appointments. Say hello to seeing your provider for as long (or as short) as you want, in person or from home, thanks to our convenient patient portal and app.
